

June 1, 2026 – Policy Update

Dear 340B Covered Entity,

This notice is to inform you that AstraZeneca is updating its Contract Pharmacy Policy to include BAXFENDY™ effective June 1, 2026.

All other aspects of AstraZeneca's existing 340B contract Pharmacy Policy will remain in place. Covered Entities with an in-house pharmacy capable of dispensing AstraZeneca products will continue to be able to purchase AstraZeneca products at the 340B price. Covered Entities without an in-house dispensing pharmacy may select a single contract pharmacy location for purchasing at the 340B price. Designations can be made by visiting www.340BESP.com/designations. If you have any questions around the designation process, please reach out to support@340BESP.com

In respect to contract pharmacy designations for Specialty Products listed in Attachment B, Covered Entities without an in-house dispensing pharmacy, or Covered Entities with an in-house pharmacy incapable of dispensing these products, may designate a single specialty pharmacy for each product. This designation will need to be part of the respective product's limited distribution network. For those Covered Entities without an in-house dispensing pharmacy, these specialty pharmacy designations will be in addition to the single contract pharmacy location for AstraZeneca Retail Products.

AstraZeneca requires Covered Entities to submit claims data on 340B utilization filled at all contract pharmacies. All specified claims data must be submitted on the 340B ESP platform within 45 days of the dispense date. The National Drug Codes (NDCs) subject to AstraZeneca's policy can be found on www.340BESP.com.

A list of Frequently Asked Questions is included in Attachment A, a list of AstraZeneca products subject to our 340B Contract Pharmacy is included in Attachment B, and state specific policies are covered in Attachment C. If you have questions regarding AstraZeneca's 340B Contract Pharmacy Policy, please contact us at 340B@astrazeneca.com

**Attachment A:
Frequently Asked Questions**

Q: Which products are subject to AstraZeneca’s Contract Pharmacy policy?

A: AstraZeneca’s contract pharmacy policy applies to the products in Attachment B. AstraZeneca will inform covered entities of any changes to the product list. Both the AstraZeneca contract pharmacy policy and up to date list of included products can be found on www.340BESP.com

Q: My covered entity has an in-house pharmacy that is capable of purchasing and dispensing AstraZeneca’s drugs, but my entity doesn’t use it to dispense AstraZeneca’s drugs. Can my entity designate one contract pharmacy instead?

A: No, under AstraZeneca’s policy, if a covered entity has an in-house pharmacy capable of dispensing 340B purchased products to eligible patients then the covered entity must use that pharmacy and cannot designate a contract pharmacy for 340B pricing instead.

Q. My 340B covered entity has contract pharmacy arrangements with multiple locations of the same pharmacy (e.g., six different Walgreens pharmacy locations). Can my entity designate all locations of the same pharmacy?

A. No. AstraZeneca’s policy allows qualifying 340B covered entities (i.e., covered entities without an inhouse pharmacy) to designate a single contract pharmacy location for accessing 340B pricing. Contract pharmacy locations are registered individually on the HRSA database and 340B covered entities are permitted to designate only a single contract pharmacy location which corresponds to a single contract pharmacy registration with HRSA.

Q: If I designate one contract pharmacy location to receive orders of product subject to this policy, may I also make a separate designation for a contract pharmacy location to receive AstraZeneca products subject to a limited distribution network?

A: Yes. Due to the limited distribution network associated with FASENRA, LYNPARZA, TAGRISSO, and TRUQAP, Covered Entities are permitted to designate a specific contract pharmacy for each product. This designation will be in addition to the contract pharmacy the covered entity had already selected for AstraZeneca’s retail products.

Q: If my in-house dispensing pharmacy is incapable of dispensing AstraZeneca specialty products, can I designate a specialty pharmacy?

A: Yes, to ensure all 340B covered entities can access AstraZeneca products at the 340B price, any covered entity that does not have an in-house pharmacy capable of dispensing 340B purchased drugs to its patients may designate a single contract pharmacy location for accessing 340B pricing.

Q. Can my covered entity designate a centralized or mail order pharmacy replenishment facility as my single contract pharmacy location?

A. Centralized replenishment facilities or “central-fill pharmacies” and mail order pharmacies are not eligible to be designated as the Retail Product single contract pharmacy location for a covered entity.

Q. How does my covered entity change its contract pharmacy designation and how often can it be changed?

A. 340B covered entities can elect a single contract pharmacy every twelve (12) months or more often if the designated contract pharmacy relationship is terminated from the HRSA OPAIS database. Changes to the single contract pharmacy can only be made by visiting www.340BESP.com/designations. Users that have registered an account with 340B ESP™ can navigate to the Entity Profile tab to make their contract pharmacy designation.

Q. Is AstraZeneca requiring covered entities to have a HIN registered for the contract pharmacy that they designate?

A. Yes, a contract pharmacy must have a HIN assigned to it for a covered entity to designate it as its single contract pharmacy. This information is important for AstraZeneca to manage its process with its wholesalers.

Q. If the contract pharmacy my covered entity wants to designate doesn't have a HIN, how does my entity get one?

A: AstraZeneca will not register a HIN on your behalf, however if you need guidance or more information on how to get a HIN assigned to your contract pharmacy, please reach out to support@340BESP.com. If you try to designate a contract pharmacy without a HIN in 340B ESP™, the system will notify you of this requirement and provide instructions for how to obtain a HIN.

Q: What are the requirements for submission of 340B claims data?

A: The claims data submission requirement applies to covered entities without an in-house pharmacy that designate one contract pharmacy location. All specified claims data must be submitted within 45 days of the date of dispense to your covered entity's patient. Please submit claims data within the specified time period to ensure your designated contract

pharmacy location remains eligible to receive 340B priced medicines. If purchases for the designated contract pharmacy location exceed conforming claims submitted according to this policy, this may result in the designated contract pharmacy losing eligibility to receive 340B priced medicines. Please see www.340besp.com/ for additional details on submitting claims data, including the limited set of required data fields.

Q. How does AstraZeneca define in-house pharmacy?

A. An in-house pharmacy is one owned by the 340B covered entity and identified by HRSA OPAIS under either “Street Address” or “Shipping Addresses.” AstraZeneca, via 340B ESP, will send in-house attestations to covered entities annually, and entities must confirm whether they operate an in-house pharmacy. If AstraZeneca observes that a wholesaler is shipping 340B priced product to an in-house pharmacy at the covered entity’s street or shipping address(es), listed in HRSA OPAIS, as well as to contract pharmacy location(s), AstraZeneca will notify the covered entity.

**Attachment C:
State Policies**

Arkansas: Effective April 1, 2025, 340B Covered Entities located in the state of Arkansas are exempt from the single contract pharmacy requirement of AstraZeneca's 340B Contract Pharmacy Policy, provided the covered entity registers and submits 340B claims data for transactions originating from all eligible contract pharmacies through Second Sight Solutions (see www.340BESP.com).

Please note that this exemption does not apply to previously accrued orders. AstraZeneca products dispensed at newly added contract pharmacies prior to April 1, 2025, are not eligible for replenishment at the 340B price. For additional information on eligible contract pharmacies, contact Support@340BESP.com.
